I want to thank everyone at Any Baby Can for guiding me safely back to myself. Words don't adequately express the depth of gratitude that I feel. When I attended my first parenting class, I wondered why I had never done this before. I had certainly felt overwhelmed and at a loss as a single parent struggling to keep it together. And when I left after class, I realized that I was not alone by any means. Every other parent and parent-to-be had also been struggling in their own way with challenges unique to their family situation, but not so different from mine that we couldn't support each other with a kind word or smile with a "Nice to see you." Denee's enthusiasm, Denise's poetic encouragement, the volunteer's unflinching politeness... kept me coming back again and again. Your organization creates an uplifting, hopeful window for people no matter who they are or how they got there.

Thank you. The Chinese character for КRISIS contains the symbols for DANGER and OPPORTUNITY. When I met you I was definitely in a crisis mode. With your help, I was able to see the opportunity and work hard for positive change. I was able to reorganize my home, change careers, and say no to negativity thanks to the loving support I experienced there. As you know, I am now a high school science teacher and I believe that every student is capable of learning if they put forth the necessary effort. I practice the skills I honed with yours and Denee's help every day in my classroom.

Humble Thanks,

Jaqueline Baker
