2013 Annual Report

Investing in Children.
Empowering Parents.
Transforming Families.

Any Baby Can
At Any Baby Can, we believe every child deserves a strong family.
Twenty thirteen will always be special to me because it’s the year I began serving in the role of Executive Director at Any Baby Can. Every day, I’m inspired not just by the work we do, but how we do it and the lasting impact it has on children and families. Research continues to prove that home visitation - our core service - is the most effective way to create positive, long-term change for vulnerable populations. And we have passionate employees with exceptional education and training providing those services. Most of all, though, I’m inspired by our clients. Despite poverty, histories of abuse, low education levels, and major medical issues, the families we serve rise above their hardships to make incredible accomplishments. I think the power of our work is well described in a core value that was recently adopted by our agency: We embrace the transformational power of the human spirit. What a privilege to be involved in this transformational work. Thanks to everyone who supports Any Baby Can and who shares the belief that every child deserves a strong family.

Margi Preston
Executive Director
Life Changing Services

1,718 children and families were served through home visitation programs focused on parenting education, child abuse prevention, medical case management and therapies, and mental health counseling.

2,381 people attended classes for childbirth preparation, postpartum support, nurturing parenting education, tutoring sessions, and child bereavement support.

2,912 clients received safety net services including emergency financial assistance, employment preparation and placement, housing stabilization, basic needs supplies, and consultation and referral.
Intuition tells us investing in programs that give children a strong, healthy start in life is a wise choice, and extensive research backs up our intuition. Children whose early years are filled with consistency, support and nurturing have significantly better odds of achieving academic and professional success, as well as being physically and emotionally healthy.”

Earl Maxwell
CEO
St. David’s Foundation

88% of Any Baby Can revenue goes directly to programs serving children and families.
The Federal Poverty Limit (FPL) is a poverty indicator based on a family's annual income. In 2013, the FPL for a family of four was $23,550.
EMPOWERING PARENTS

“ I was so happy when I found Any Baby Can. They taught me everything about being pregnant and going through delivery. It’s amazing how much they help. Any Baby Can has been the backbone of my pregnancy and being a mother.” - Angela

94% of clients demonstrated improved knowledge and skills in the areas of child development, parenting techniques, healthy relationships, and community resources.
In FY13, Any Baby Can’s annual budget was $6,141,845. For detailed reports on Any Baby Can financials, please visit the About Us page of www.anybabycan.org.

Any Baby Can has made the difference in being able to enjoy our daughter instead of worrying about what might be wrong. They have been integral in her first year in making sure that our family is solid, stable, and where we need to be.” - Leslie

94% of clients made progress toward life-changing goals like a healthy birth outcome, improved physical development of their child, creating a safe, healthy home environment, and self-sufficiency in employment, education, and housing.
The Numbers are Rising.

Low-income children are the fastest-growing demographic for Austin/Travis County.

Population growth from 2000-2010:

- Total Population: 26%
- Children Under 6: 31%
- Low-income Children: 71%

The Need is Great.

Only 4% of high-need families in Texas are receiving the home visitation services they need.

At-Risk Children are More Likely to:

- Become a juvenile delinquent
- Never attend college
- Drop out of school
- Become pregnant as a teenager
- Have school-related problems
- Become involved with drugs
- Face learning disorders requiring special education
- Be arrested for a violent crime

The Results are Proven.

Child abuse and neglect
Premature delivery
Low birth weight babies
Child’s language delays
Subsequent pregnancies
Child arrests at age 15
Months on welfare
Number of ER visits

Research continues to show the substantial positive outcomes of home visitation programs like those offered at Any Baby Can.
