

Nurse-Family Partnership

Empowering First-Time Moms

Any Baby Can partners with first-time mothers to bring answers, guidance and confidence to this transitional stage in life. Our Nurse-Family Partnership program improves pregnancy outcomes, decreases pre-term births, and empowers moms to create better futures for themselves and their babies.

Beginning in early pregnancy, first-time pregnant mothers are matched with a free, personal nurse to guide them through pregnancy and becoming a parent. The nurse is available to the mother until the child turns two years old.

Nurse-Family Partnership Provides:

- Regular, in-home nurse visits throughout pregnancy and the post-partum period
- Healthy and safe parenting techniques
- Knowledge about child development
- Access to referrals for healthcare, childcare, job training, counseling and other services in the community
- Support on developing and reaching educational and career goals
- Continuity of care by collaborating with physicians and encouraging clients to attend all prenatal appointments

Eligibility Criteria:

- First-time, pregnant moms
- Before 28 weeks of pregnancy (the earlier the better!)
- Residents of Williamson or Travis County
- Under 185th Federal Poverty Level (qualify for WIC/Medicaid)

About Any Baby Can:

Any Baby Can partners with parents so children can reach their full potential. With a focus on child development, we guide families in building confidence, nurturing healthy relationships, and planning for the future. We envision a community in which all parents feel supported, valued and empowered to ensure their children have the best chance at a bright future.

Program Benefits

A personal nurse to guide you through your journey into parenthood.

Professional health assessments and guidance in the comfort of your home.

Connections to community resources to strengthen you and your family.
